Important factors that could cause such differences include, but are not limited to:

- our need for substantial additional funding to finance our operations and complete development to seek FDA approval for AL001 and ALZN002 before commercialization;

- our ability to manage our expansion, growth and operating expenses;
- our ability to evaluate and measure our business, prospects and performance metrics;
- our ability to compete and succeed in a highly competitive and evolving industry;
- our ability to respond and adapt to changes in technology and customer behavior;
- our ability to protect our intellectual property and to develop, maintain and enhance a strong brand;
- our significant losses since inception and anticipation that we will continue to incur significant losses for the foreseeable future;
- our reliance on licenses from a third party regarding our rights and development of AL001 and ALZN002;
- our development of AL001 and ALZN002 never leading to a marketable product;
- our product candidates not qualifying for expedited development, or if they do, not actually leading to a faster development or regulatory review or approval process;

- our approach to targeting beta-amyloid plaque via ALZN002 being based on a novel therapeutic approach; and
- the risk factors included in our most recent filings with the SEC, including, but not limited to, our Forms 10-K and 10-Q, which are incorporated by reference herein.

Should one or more of these risks or uncertainties materialize or should any of the assumptions made by the management of the Company prove incorrect, actual results may vary in material respects from those projected in these forward-looking statements.

Except to the extent required by applicable law or regulation, the Company undertakes no obligation to update these forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.

PROSPECTUS SUMMARY

This summary highlights certain information appearing elsewhere in this prospectus. Because it is only a summary, it does not contain all of the information that you should consider before investing in our securities and it is qualified in its entirety by, and should be read in conjunction with, the more detailed information appearing elsewhere in this prospectus. Before you decide to invest in our Common Stock, you should read the entire prospectus carefully, including the section titled "Risk Factors" and our financial statements and related notes thereto included elsewhere in this prospectus.

Overview

We were incorporated on February 26, 2016, as Alzamend Neuro, Inc. under the laws of the State of Delaware. We were formed to acquire and commercialize patented intellectual property and know-how to prevent, treat and potentially cure the crippling and deadly Alzheimer's. With our two product candidates, we aim to bring treatment or cures not only for Alzheimer's, but also bipolar disorder ("BD"), major depressive disorder ("MDD") and post-traumatic stress disorder ("PTSD"). Existing Alzheimer's treatments only temporarily relieve symptoms but do not, to our knowledge, slow or halt the underlying worsening of the disease. We have developed a novel approach to combat Alzheimer's through immunotherapy.

Plan of Operations

We intend to develop and commercialize therapeutics and vaccines that are better than existing treatments and have the potential to significantly improve the lives of individuals afflicted by Alzheimer's, BD, MDD and PTSD. To achieve these goals, we are pursuing the following key business strategies:

- Advance clinical development of AL001 for Alzheimer's, BD, MDD and PTSD treatment;
- Advance clinical development of ALZN002 for Alzheimer's treatment;
- Expand our pipeline of pharmaceuticals to include additional indications for AL001 and delivery methods;
- Focus on translational and functional endpoints to efficiently develop product candidates; and
- Optimize the value of AL001 and ALZN002 in major markets.

Our pipeline consists of two novel therapeutic drug candidates:

- AL001 - A patented ionic cocrystal technology delivering a therapeutic combination of lithium, salicylate and proline through three royalty-bearing exclusive worldwide licenses from the University of South Florida Research Foundation, Inc., as licensor (the "Licensor"); and
- ALZN002 - A patented method using a mutant peptide sensitized cell as a cell-based therapeutic vaccine that seeks to restore the ability of a patient's immunological system to combat Alzheimer's through a royalty-bearing exclusive worldwide license from the Licensor.

Our most advanced product candidate (lead product) licensed and in clinical development in humans is AL001, an ionic cocrystal of lithium for the treatment of Alzheimer's, BD, MDD and PTSD. Based on our preclinical data involving mice models, AL001 treatment prevented cognitive deficits, depression and irritability and is superior in improving associative learning and memory and irritability compared with lithium carbonate treatments, supporting the potential of this lithium formulation for the treatment of Alzheimer's, BD, MDD and PTSD in humans. Lithium has been marketed for more than 35 years and human toxicology regarding lithium use has been well characterized, potentially mitigating the regulatory burden for safety data.

On May 5, 2022, we initiated a multiple-dose, steady-state, double-blind, ascending dose safety, tolerability, pharmacokinetic clinical trial of AL001 in patients with mild to moderate Alzheimer's and healthy subjects. We completed the Phase IIA clinical trial in March 2023 and announced positive topline data in June 2023, followed by the full data set in October 2024.

We announced that we successfully identified a maximum tolerated dose ("MTD") for development of AL001 from a multiple-ascending dose study as assessed by an independent safety review committee. This dose, providing lithium at a lithium carbonate equivalent dose of 240 mg 3-times daily ("TID"), is designed to be unlikely to require lithium therapeutic drug monitoring ("TDM"). Also, this MTD is risk mitigated for the purpose of treating fragile populations, such as Alzheimer's patients.

Lithium is a commonly prescribed drug for manic episodes in BD type 1 as well as maintenance therapy of BD in patients with a history of manic episodes. Lithium is also prescribed off-label for MDD, BD and treatment of PTSD, among other disorders. Lithium was the first mood stabilizer approved by the U.S. Food and Drug Administration ("FDA") and is still a first-line treatment option (considered the "gold standard") but is underutilized perhaps because of the need for TDM. Lithium was the first drug that required TDM by regulatory authorities in product labelling because the effective and safe range of therapeutic drug blood concentrations is narrow and well defined for treatment of BD when using lithium salts. Excursions above this range can be toxic, and below can impair effectiveness. Existing lithium drugs suffer from chronic toxicity, poor physicochemical properties, and poor brain bioavailability. Alzamend's novel AL001 formulation, a lithium-salicylate/L-proline engineered ionic cocrystal, is designed to overcome the toxicities associated with conventional lithium salts, promising a next-generation lithium treatment with an

enhanced safety profile and advantageous distribution to brain and brain structures.

Based on the results from our Phase IIA MAD study, we plan to initiate five clinical trials to determine relative increased lithium levels in the brain compared to a marketed lithium salt for healthy subject and patients diagnosed with mild to moderate Alzheimer's, BD, MDD and PTSD, based on published mouse studies that predict that lithium can be given at lower doses for equivalent therapeutic benefit when treating with AL001. For example, the goal is to replace the amount of lithium needed for maintenance treatment of BD with a clinically relevant, lower AL001 lithium carbonate equivalent lithium dose. Such lithium dose mitigation could redefine the landscape of neuropsychiatric, neurodegenerative, and neurological treatment practices. In August 2024, we announced that we had partnered with Massachusetts General Hospital to serve as the CRO for these clinical trials.

On November 19, 2024, we announced final full data set from a nonclinical study comparing brain and plasma lithium exposures between AL001 and lithium carbonate in Alzheimer's transgenic mice. The study was conducted at the University of South Florida and the bioanalytical procedures for determination of lithium concentration in the brain and plasma samples were conducted under good laboratory practice standards by Sannova Analytical LLC. The study involved administering AL001, a good manufacturing practices-quality active pharmaceutical ingredient ("API") to 5XFAD mice, a recognized model for Alzheimer's research, to compare its effects against lithium carbonate, an FDA approved and marketed API. Mice received either high or low doses scaled to humans of both AL001 and lithium carbonate over a 14-day period to observe pharmacokinetic steady-state drug conditions. On the 15th day, the mice were analyzed to assess how the treatments affected lithium concentrations in different brain regions and in their plasma.

Based on the study, both treatments had no negative impact on the mice's body weight or clinical signs during the treatment period. AL001 showed lower plasma lithium levels than lithium carbonate, reducing the risk of adverse systemic effects, suggesting an expansion for safety of lithium's therapeutic index. Further, AL001 showed consistently higher lithium concentrations in brain tissues, particularly at lower doses, compared to lithium carbonate. Finally, the study found that different brain regions absorb and retain lithium differently. This means treatments can potentially be tailored to target specific brain areas, allowing for more precise treatment of various brain-related conditions when applied in human studies.

These results highlight the potential clinical advantages of AL001 for conditions like Alzheimer's, BD, MDD and PTSD at low doses. By reducing the systemic burden, AL001 could lessen the risk of side effects such as thyroid and kidney complications often associated with extant lithium therapies. This positions AL001 as a promising candidate for safer long-term treatment options, without the need for TDM. This innovation is specifically designed to address the needs of fragile populations, such as elderly and Alzheimer's patients, by offering a potentially more efficient and safer alternative to existing treatments.

The dosing level identified as optimal in this robust nonclinical study will serve as the foundation for advancing the evaluation of AL001 in the comprehensive 'Lithium in Brain' Phase II clinical trials. These trials, conducted in collaboration with Massachusetts General Hospital, will encompass a diverse cohort of both healthy subjects and patients diagnosed with mild to moderate Alzheimer's disease, BD, MDD and PTSD.

On September 28, 2022, we submitted an IND application to the FDA for ALZN002 and received a "study may proceed" letter on October 31, 2022. The product candidate is an immunotherapy vaccine designed to treat mild to moderate dementia of the Alzheimer's type. ALZN002 is a proprietary "active" immunotherapy product, which means it is produced by each patient's immune system. It consists of autologous DCs that are activated white blood cells taken from each individual patient so that they can be engineered outside of the body to attack Alzheimer's-related amyloid-beta proteins. These DCs are pulsed with a novel amyloid-beta peptide (E22W) designed to bolster the ability of the patient's immune system to combat Alzheimer's, with the goal being to foster tolerance to treatment for safety purposes while stimulating the immune system to reduce the brain's beta-amyloid protein burden, resulting in reduced Alzheimer's signs and symptoms. Compared to passive immunization treatment approaches that use foreign blood products (such as monoclonal antibodies), active immunization with ALZN002 is anticipated to offer a more robust and long-lasting effect on the clearance of amyloid. This could provide a safer approach due to its reliance on autologous immune components, using each individual patient's own white blood cells rather than foreign cells and/or blood products.

On April 3, 2023, we announced the initiation of a Phase I/IIA clinical trial for ALZN002 to treat mild to moderate dementia of the Alzheimer's type. The purpose of this trial is to assess the safety, tolerability, and efficacy of multiple ascending doses of ALZN002 compared with that of a placebo in 20-30 subjects with mild to moderate morbidity. The primary goal of this clinical trial is to determine an appropriate dose of ALZN002 for treatment of patients with Alzheimer's in a larger Phase IIB efficacy and safety clinical trial. On February 13, 2024, we received notice from the company we engaged as our contract research organization ("CRO"), Biorasi, LLC ("Biorasi") that Biorasi was terminating our contract with them. We are currently pursuing the engagement of a replacement CRO.

The continuation of our current plan of operations with respect to initiating and conducting the series of human clinical trials for each of our therapeutics requires us to raise additional capital to fund our operations.

Because our working capital requirements depend upon numerous factors, including the progress of our preclinical and clinical testing, timing and cost of obtaining regulatory approvals, changes in levels of resources that we devote to the development of manufacturing and marketing capabilities, competitive and technological advances, status of competitors, and our ability to establish collaborative arrangements with other organizations, we will require additional financing to fund future operations.

RISK FACTORS

Investing in our securities involves a high degree of risk. You should carefully consider the following risk factors, as well as those set forth in our most recent Annual Report on Form 10-K filed with the SEC and subsequent Quarterly Reports on Form 10-Q, which are incorporated by reference into this prospectus, as well as the other information set forth in this prospectus and the documents incorporated by reference herein, before deciding whether to invest in our securities. Additional risks and uncertainties that we are unaware of may become important factors that affect us. If any of these risks materializes, our business, financial condition or operating results may suffer, the trading price of our common stock could decline, and you may lose all or part of your investment.

Risks Related to the Offering

It is not possible to predict the actual number of Preferred Shares we will sell under the Purchase Agreement to the Selling Stockholder, or the actual gross proceeds resulting from those sales, since we must satisfy certain closing conditions at each tranche closing in order for the Selling Stockholder to be required to purchase additional Preferred Shares. Consequently, we may not have access to the full amount available under the Purchase Agreement with the Selling Stockholder within the foreseeable future, if at all.

On the Execution Date, we entered into the Purchase Agreement with the Selling Stockholder, pursuant to which the Selling Stockholder has committed to purchase up to the \$5 million of our Preferred Shares, subject to our having satisfied certain closing conditions (the “Closing Conditions”) at each tranche closing in order for the Selling Stockholder to be required to purchase additional Preferred Shares. The Preferred Shares that will be issued under the Purchase Agreement will, subject to our ability to satisfy the Closing Conditions, be sold by us to the Selling Stockholder from time to time beginning on the date of the second tranche closing (a “Tranche Closing”) and continuing with sales of the third, fourth, fifth, sixth and seventh Tranche Closings as provided for in the Purchase Agreement.

Because it is currently impossible to predict whether we will satisfy any of the Closing Conditions at each Tranche Closing, there can be no assurance that we will meet any of them. Consequently, we may not have access to the full amount available under the Purchase Agreement with the Selling Stockholder within the foreseeable future, if at all.

Our inability to access a portion or the full amount available under the Purchase Agreement, in the absence of any other financing sources, could have a material adverse effect on our business, in which case you would likely lose the entirety of your investment in our company.

The Preferred Shares are convertible into our Common Stock at a discount to the market price, which would increase the number of shares eligible for future resale in the public market and result in dilution to our stockholders.

Each Preferred Share is convertible into such number of shares of our Common Stock equal to the stated value of the Preferred Shares, which is \$10,000 per share (the “Stated Value”) divided by the greater of (i) \$0.10 per share (the “Floor Price”), and (ii) the lesser of (A) \$15.00 and (B) 80% of the lowest closing price of the Common Stock during the three (3) trading days immediately prior to the date of conversion (the “Conversion Price”). Based upon the lowest closing price of \$0.9289 for our Common Stock during the three trading days prior to the date of this prospectus of April 8, 2025, the 597,7511 Preferred Shares (assuming no issuance of PIK Shares) would be convertible, at

the Conversion Price of \$0.74312 into approximately 8,043,803 Conversion Shares. However, because we cannot issue more than 19.99% of the shares of Common Stock issued and outstanding on the Execution Date, or 1,318,841 such shares, the Preferred Shares would be unable to be converted into more than 1,318,841 shares of our Common Stock, unless and until we obtain stockholder approval. The shares of our Common Stock issued upon conversion of the Preferred Shares will result in dilution to the then existing holders of our Common Stock and increase the number of shares eligible for resale in the public market. Sales of substantial numbers of such shares in the public market could adversely affect the market price of our Common Stock.

The certificate of designations of rights and preferences of the Preferred Shares (the “Series C COD”) contains anti-dilution provisions that may result in the reduction of the Conversion Price in the future. This feature may result in an increased number of shares of Common Stock being issued upon conversion of the Preferred Shares. Sales of these shares will dilute the interests of other security holders and may depress the price of our Common Stock and make it difficult for us to raise additional capital.

The Series C COD contains anti-dilution provisions, which provisions require the lowering of the applicable Conversion Price, as then in effect, to the purchase price of equity or equity-linked securities issued in subsequent offerings. If in the future, while any of the Preferred Shares are outstanding, we issue securities at an effective purchase price less than the applicable Conversion Price of the Preferred Shares as then in effect, we will be required, subject to certain limitations and adjustments as provided in the Series C COD, to further reduce the Conversion Price, subject to the Floor Price, which would result in a greater number of shares of Common Stock being issuable upon conversion of the Preferred Shares, which in turn will have a greater dilutive effect on our stockholders.

The Series C COD of the Preferred Shares provides for the payment of dividends in cash or in additional Preferred Shares, at the Selling Stockholder’s option, which could require us to issue additional shares of Common Stock upon conversion of Preferred Shares issued as dividends.

Each Preferred Share is entitled to receive cumulative dividends at the rate per share of 15% per annum of the Stated Value. The dividends are payable, at the Selling Stockholder’s discretion, in cash, out of any funds legally available for such purpose, or to be paid-in-kind in the form of additional Preferred Shares (the “PIK Shares”). In the event that the Selling Stockholder elects to receive PIK Shares, that would increase the number of Preferred Shares we would be required to pay as a dividend in the future and increase the number of shares of Conversion Shares issuable upon conversion of the Preferred Shares. We will not be permitted to pay the dividend in cash unless we are legally permitted to do so under Delaware law. As such, if we are unable to pay cash, it is likely that the Selling Stockholder would elect to receive PIK Shares rather than accrue the receipt of the cash dividend payment, which would result in further dilution to our stockholders.

Sales of a substantial number of our shares of Common Stock in the public markets, or the perception that such sales could occur, could cause our stock price to fall.

We may issue and sell additional shares of Common Stock in the public markets, including as part of this offering. As a result, a substantial number of our shares of Common Stock may be sold in the public market. Sales of a substantial number of our shares of Common Stock in the public markets, including in connection with this offering, or the perception that such sales could occur, could depress the market price of our Common Stock and impair our ability to raise capital through the sale of additional equity securities.

We may not receive any additional funds upon the exercise of the Warrant.

In the event that there is not an effective registration statement registering the Warrant Shares, the Warrant may be exercised by way of a cashless exercise, meaning that the holder may not pay a cash purchase price upon exercise, but instead would receive upon such exercise the net number of shares of our Common Stock determined according to the formula set forth in the Warrant. Accordingly, we may not receive any additional funds upon the exercise of the Warrant.

Because we do not currently intend to declare cash dividends on our shares of Common Stock in the foreseeable future, stockholders must rely on appreciation of the value of our Common Stock for any return on their investment.

We have never paid cash dividends on our Common Stock and do not plan to pay any cash dividends in the foreseeable future. We currently intend to retain all of our future earnings, if any, to finance the operation, development and growth of our business. Furthermore, any future debt agreements may also preclude us from paying, or place restrictions on our ability to pay, dividends in cash. As a result, capital appreciation, if any, of our Common Stock will be your sole source of gain with respect to your investment for the foreseeable future.

PRIVATE PLACEMENT

On the Execution Date, we entered into the Purchase Agreement with the Selling Stockholder, pursuant to which the Selling Stockholder has committed to purchase up to \$5 million of Preferred Shares, subject to the satisfaction of the conditions in the Purchase Agreement.

Such sales of our Preferred Shares, if any, will be subject to certain limitations, and may occur from time to time, i.e., when the Milestones are met over the approximately 6-month period commencing on the second Tranche Closing, which will occur on the earlier of (i) April 29, 2025 or (ii) the fifteenth calendar day after this registration statement, of which this prospectus forms a part, and any other registration statement the Company may file from time to time relating to the resale by the Selling Stockholder of Conversion Shares, has been declared effective by the Securities and Exchange Commission (the “SEC” or the “Commission”) and remains effective, and the other Closing Conditions set forth in the Purchase Agreement are satisfied.

The Purchase Agreement contains customary representations, warranties, conditions and indemnification obligations of the parties. In addition, the Purchase Agreement may be terminated by either us or the Selling Stockholder if this registration statement, of which this prospectus forms a part, has not been declared effective by the Commission by April 15, 2025.

Notwithstanding the foregoing Closing Conditions, the Selling Stockholder has the ability to invest any amount in its sole discretion in advance of the dates that the Closing Conditions shall have been met. If we sell to the Selling Stockholder the remaining Preferred Shares, we will receive \$5 million of gross proceeds, as well as any proceeds we may receive in the event that Selling Stockholder exercises its Warrant for cash. We currently expect to use the net proceeds from the sale of the Preferred Shares for working capital and general corporate purposes.

In the event that the average closing price of the Common Stock during the three trading days preceding the date of a Tranche Closing shall not be equal to or greater than the Floor Price, then the applicable closing shall be delayed until such time as the price meets the required threshold.

We agreed to use our best efforts to file this Registration Statement, registering for resale the shares of Common Stock issuable upon conversion of the Preferred Shares and exercise of the Warrant, with the SEC within 15 days of the Execution Date, and cause the Registration Statement to be declared effective within 55 days of the Execution Date. In the event that we fail to timely file the Registration Statement or it is not declared effective within the agreed upon timeframe, then we agreed to pay the Selling Stockholder liquidated damages equal to 2% of the purchase price of the securities for such failure, and for every 30-day period thereafter, subject to a maximum

payment of liquidated damages of 12% of the purchase price.

In addition, we agreed to use our best efforts to file a preliminary proxy statement no later than 20 days after the Execution Date and thereafter file a definitive proxy statement related to a special meeting of our stockholders within 30 days of the Execution Date for purposes of seeking stockholder approval of the issuance of all the shares of Common Stock issuable upon conversion of the Preferred Shares and the exercise of the Warrant in excess of the “Nasdaq Limit,” which is 19.99% of our shares of Common Stock issued and outstanding on the Execution Date. We filed a preliminary proxy statement related to the necessary approval with the SEC on February 28, 2025. We presently anticipate, but cannot assure you, that the annual meeting of stockholders will be held on April 25, 2025.

The Purchase Agreement provides that the Selling Stockholder shall, for as long as any Preferred Shares remain outstanding, have the right to request, in the event we issue other securities to a different investor (the “Other Investor”) that have more favorable terms than are contained in the Purchase Agreement, the Series C COD and the Warrant, that it be granted the same preferential rights with which we provide the Other Investor.

Further, for a period of two years from Execution Date (the “Obligation Period”), provided that (i) the Selling Stockholder shall have purchased no less than \$712,500 in Preferred Shares by April 15, 2025 and (ii) at any such time the Selling Stockholder shall hold no fewer than twenty-five (25) Preferred Shares, the Selling Stockholder will have a right of first refusal with respect to any investment proposed to be made by an Other Investor for each and every future public or private equity offering, including a debt instrument convertible into equity of our company during the Obligation Period.

Moreover, during the Obligation Period and provided that (i) the Selling Stockholder shall have purchased no less than \$712,500 in Preferred Shares by April 15, 2025 and (ii) at any such time the Selling Stockholder shall hold no fewer than twenty-five (25) Preferred Shares and has not elected to exercise its rights described immediately above, the Selling Stockholder shall have a right to participate in any subsequent financing (a “Subsequent Financing”) allowing the Selling Stockholder to purchase such number of securities in the Subsequent Financing to allow the Selling Stockholder to maintain its percentage beneficial ownership in our company that the Selling Stockholder held immediately prior to the Subsequent Financing.

The Exchange

Pursuant to the Purchase Agreement, the first transaction between us and the Selling Stockholder consisted of the surrender for cancellation of the Selling Stockholder's 97,7511 shares of the Company's Series A Convertible Preferred Stock for an equal number of Preferred Shares. This transaction (the “Exchange”) occurred on March 3, 2025.

Pursuant to the Purchase Agreement, in connection with the Exchange, the Selling Stockholder received a Warrant to purchase 1,000,000 shares of Common Stock (the “Warrant Shares”) and the Selling Stockholder's previously issued warrants, which were exercisable for an aggregate of 640,000 shares of Common Stock, were cancelled.

Subsequent Purchases of Preferred Shares

Pursuant to the Purchase Agreement, the Selling Stockholder shall purchase up to 500 Preferred Shares as follows:

- 75 Preferred Shares, for \$725,000, on the earlier of (i) April 29, 2025 or (ii) the fifteenth calendar day after the registration statement, of which this prospectus forms a part, has been declared effective by the SEC (the “Second Tranche Closing”);
- 75 Preferred Shares, for \$725,000, on each of the five monthly anniversaries of the Second Tranche Closing; and
- 50 Preferred Shares, for \$475,000, on the sixth monthly anniversary of the Second Tranche Closing

Preferred Shares

General

The following is a brief summary of certain terms and conditions of the Preferred Shares. The following description is subject in all respects to the provisions contained in the Certificate of Designation of the Rights and Preferences of the Series C Preferred Stock (the “Series C COD”), which is incorporated by reference as an exhibit to the registration statement of which this prospectus forms a part. Capitalized terms not otherwise defined in this description of the Preferred Shares shall have the meanings ascribed to such terms in the Series C COD. The Preferred Shares are governed by the Series C COD, which was filed with the Delaware Secretary of State on February 28, 2025.

Dividends

Holders of the Preferred Shares will be entitled to receive dividends at the rate of 15% per annum, payable quarterly in arrears in cash or PIK Shares, in the Selling Stockholder's sole discretion.

Conversion

Each Preferred Share is convertible into such number of shares of Common Stock equal to the Stated Value divided by (y) the greater of (i) \$0.10 per share (the “Floor Price”) and (ii) the lesser of (A) \$15.00 and (B) 80% of the lowest closing price of our Common Stock during the three trading days immediately prior to the date of conversion into Conversion Shares. The Conversion Price is subject to adjustment in the event of an issuance of Common Stock at a price per share lower than the Conversion Price then in effect, but not below the Floor Price. Notwithstanding the foregoing, in no event shall a reduction in the Conversion Price reduce the Conversion Price below the Floor Price.

Voting Rights

The holders of the Preferred Shares are entitled to vote with the Common Stock as a single class on an as-converted basis, subject to applicable law provisions of the Delaware General Corporation Law and the rules of the Nasdaq, provided however, that for purposes of complying with Nasdaq rules, the conversion price, for purposes of determining the number of votes the holder of Preferred Shares is entitled to cast, shall not be lower than \$0.8375 (the “Voting Floor Price”), which represents the closing sale price of the Common Stock on the trading day immediately prior to the Execution Date. In contrast to the Floor Price, the Voting Floor Price shall be adjusted for stock dividends, stock splits, stock combinations and other similar transactions.

Exchange Cap

The Preferred Shares will not be convertible into shares of Common Stock in excess of the Nasdaq Limit, except in the event that the Company obtains stockholder approval for issuances of Conversion Shares in excess of the Nasdaq Limit. Until such approval, no holder of Preferred Shares shall be issued in the aggregate more shares of Common Stock than the Nasdaq Limit.

Beneficial Ownership Limitations

A holder of the Preferred Shares will not have the right to convert any such shares, and the Company will not effect any conversion of any Preferred Shares, to the extent that after giving effect to such conversion, the holder would beneficially own in excess of 4.99% of the outstanding shares of our Common Stock calculated in accordance with Section 13(d) of the Exchange Act. However, any holder may increase or decrease such beneficial ownership limitation upon notice to us, provided that such limitation cannot exceed 9.99%, and provided that any increase in the beneficial ownership limitation shall not be effective until 61 days after such notice is delivered.

Exchange Listing

There is no established trading market for the Preferred Shares and we do not expect a market to develop. In addition, we do not intend to apply for the listing of the Preferred Shares on any national securities exchange or other trading market. Without an active trading market, the liquidity of the Preferred Shares will be extremely limited.

Liquidation

In the event of liquidation, dissolution, or winding up of the Company, the holders of Preferred Shares have a preferential right to receive an amount equal to the Stated Value of the Preferred Shares before any distribution to other classes of capital stock. If the assets are insufficient, the distribution will be prorated among the holders of Preferred Shares. The Preferred Shares rank senior over other classes of preferred stock, including the Series B convertible preferred stock.

Warrant

The Selling Stockholder received a Warrant to purchase 1,000,000 shares of our Common Stock.

Duration and Exercise Price

The exercise price of the Warrant is \$0.92125 (the "Exercise Price"). The Exercise Price is subject to adjustment in the event of customary stock splits, stock dividends, combinations or similar events. The Warrant is immediately exercisable upon issuance, has a five-year term and expires on the fifth anniversary of the Execution Date.

Exercisability

The Warrants will be exercisable, at the option of the holder, in whole or in part, by delivering to us a duly executed exercise notice accompanied by payment in full for the number of shares of our Common Stock purchased upon such exercise (except in the case of a cashless exercise as discussed below). A holder (together with its affiliates) may not exercise any portion of such holder's Warrants to the extent that the holder would own more than 4.99% (or 9.99%, at the holder's election) of our outstanding Common Stock immediately after exercise, except that upon notice from the holder to us, the holder may decrease or increase the limitation of ownership of outstanding Common Stock after exercising the holder's Warrants up to 9.99% of the number of shares of our Common Stock outstanding immediately after giving effect to the exercise, as such percentage ownership is determined in accordance with the terms of the Warrants, provided that any increase in such limitation shall not be effective until 61 days following notice to us.

Cashless Exercise

If, at the time a holder exercises its Warrants, a registration statement registering the issuance of the shares of common stock underlying the Warrants under the Securities Act is not then effective or available for the issuance of such shares, then in lieu of making the cash payment otherwise contemplated to be made to us upon such exercise in payment of the aggregate exercise price, the holder may elect instead to receive upon such exercise (either in whole or in part) the net number of shares of Common Stock determined according to a formula set forth in the Warrant.

Fractional Shares

No fractional shares of Common Stock will be issued upon the exercise of the Warrants. Rather, the number of shares of Common Stock to be issued will be rounded up to the nearest whole number.

Rights as a Stockholder

The holders of the Warrant do not have the rights or privileges of holders of our Common Stock, including any voting rights, until such holders exercise their Warrant.

No Short-Selling or Hedging by the Selling Stockholder

The Selling Stockholder has agreed that, during the term of the Purchase Agreement, neither the Selling Stockholder nor any of its affiliates will engage in any short sales or hedging transactions with respect to our Common Stock.

Termination of the Purchase Agreement

Unless earlier terminated as provided in the Purchase Agreement, the Purchase Agreement will terminate automatically on the date on which the Selling Stockholder shall have purchased Preferred Shares under the Purchase Agreement for an aggregate gross purchase price equal to \$5 million under the Purchase Agreement.

USE OF PROCEEDS

We will not receive any proceeds from the sale of shares of Common Stock by the Selling Stockholder, provided, that we would receive certain proceeds in the event that the Selling Stockholder elects to exercise its Warrant for cash. Any proceeds we receive from the exercise of the Warrant would be used for general working capital purposes. We will bear all of the expenses of this offering, and such expenses will be paid out of our general funds.

Holders of our Common Stock are entitled to share in all dividends that our Board of Directors, in its discretion, declares from legally available funds. In the event of a liquidation, dissolution or winding up, each outstanding share entitles its holder to participate pro rata in all assets that remain after payment of liabilities and after providing for each class of stock, if any, having preference over our Common Stock. Our Common Stock has no preemptive, subscription or conversion rights and there are no redemption provisions applicable to our Common Stock.

SELLING STOCKHOLDER

This prospectus relates to the offer and sale by the Selling Stockholder of up to 75,775,110 shares of our Common Stock that may be issued by us to the Selling Stockholder upon conversion of the Preferred Shares and exercise of the Warrant as provided for in the Purchase Agreement. For additional information regarding the shares of our Common Stock included in this prospectus, see the sections titled “*Private Placement*” and “*Description of Securities Being Offered*” above. We are registering the shares of Common Stock included in this prospectus pursuant to the Purchase Agreement, in order to permit the Selling Stockholder to offer the shares included in this prospectus for resale from time to time. Except for the transactions contemplated by the Securities Purchase Agreement dated May 9, 2024 that we entered into with the Selling Stockholder, which provided for the sale of the Subject Shares to the Selling Stockholder, and the Purchase Agreement and as set forth in this section below, the Selling Stockholder has not had any material relationship with us within the past three years.

The table below presents information regarding the Selling Stockholder and the shares of our Common Stock that may be resold by the Selling Stockholder from time to time under this prospectus. This table is prepared based on information supplied to us by the Selling Stockholder, and reflects holdings as of April 8, 2025. The number of shares in the column “Securities to be Sold in this Offering” represents all of the shares of our Common Stock being offered for resale by the Selling Stockholder under this prospectus. The Selling Stockholder may sell some, all or none of the shares being offered for resale in this offering. We do not know how long the Selling Stockholder will hold the shares before selling them. Except as set forth in the section titled “*Plan of Distribution*” in this prospectus, we are not aware of any existing arrangements between the Selling Stockholder and any other stockholder, broker, dealer, underwriter or agent relating to the sale or distribution of the shares of our common stock being offered for resale by this prospectus.

Beneficial ownership is determined in accordance with Rule 13d-3(d) promulgated by the SEC under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and includes shares of our Common Stock with respect to which the Selling Stockholder has sole or shared voting and investment power. The percentage of shares of our Common Stock beneficially owned by the Selling Stockholder prior to the offering shown in the table below is based on an aggregate of 6,608,591 shares of common stock outstanding on March 26, 2025. The fourth column assumes the resale by the Selling Stockholder of all of the shares of our Common Stock being offered for resale pursuant to this prospectus.

Name of Selling Stockholder	Securities Beneficially Owned Prior to this Offering ⁽¹⁾		Securities to be Sold in this Offering ⁽²⁾		Securities Beneficially Owned After this Offering

- (1) The Purchase Agreement, Series C COD and Warrant prohibit us from issuing any shares of Common Stock to the Selling Stockholder to the extent such shares, when converted and/or exercised, as applicable, and aggregated with all other shares of our Common Stock then beneficially owned by the Selling Stockholder, would cause the Selling Stockholder’s beneficial ownership of our Common Stock to exceed the 4.99% ownership limitation. The ownership limitation may not be amended or waived under the Purchase Agreement, except that it may be increased to 9.99% upon 61 days’ notice to us.

- (2) Includes 347,088 shares of Common Stock issuable upon conversion of approximately 25.7928 Preferred Shares owned by the Selling Stockholder as of April 8, 2025. Does not include additional shares of Common Stock issuable upon the (i) conversion of approximately 71.9583 Preferred Shares owned by the Selling Stockholder as of April 8, 2025, due to the 4.99% beneficial ownership limitation, (ii) exercise of the Warrant to purchase 1,000,000 Warrant Shares owned by the Selling Stockholder as of April 8, 2025, due to the 4.99% beneficial ownership limitation, (iii) the conversion of up to 500 Preferred Shares that the Selling Stockholder may purchase pursuant to the Purchase Agreement or (iv) conversion of an aggregate of potentially issuable 150 PIK Shares.
- (3) Applicable percentage ownership is based on 6,608,591 shares of common stock outstanding as of April 8, 2025.
- (4) The Selling Stockholder is controlled by Rosemary Nguyen and Thomas Harrison as managing members. Each of Ms. Nguyen and Mr. Harrison has voting and dispositive power over the shares. The business address of the Selling Stockholder is 11378 Villa Bellagio Drive, Las Vegas, NV 89141.

PLAN OF DISTRIBUTION

The Selling Stockholder and any of its pledgees, assignees and successors-in-interest, may, from time to time, sell any or all of its Common Stock covered by this prospectus hereby on the principal trading market or any other stock exchange, market or trading facility on which our Common Stock are traded or in private transactions.

These sales may be at fixed or negotiated prices. The Selling Stockholder may use any one or more of the following methods when selling such Common Stock:

- ordinary brokerage transactions and transactions in which a broker dealer solicits purchasers;
- block trades in which a broker dealer will attempt to sell the Common Stock as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker dealer as principal and resale by a broker dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions;
- to cover short sales made after the date that the registration statement of which this prospectus is a part is declared effective by the SEC;
- in transactions through broker dealers that agree with the Selling Stockholder to sell a specified number of such Common Stock at a stipulated price per share;
- through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise;
- a combination of any such methods of sale; or
- any other method permitted pursuant to applicable law.

The registered shares may also be sold under Rule 144 under the Securities Act, if available for the Selling Stockholder, rather than under this prospectus. The Selling Stockholder has the sole and absolute discretion not to accept any purchase offer or make any sale of registered shares if it deems the purchase price to be unsatisfactory at any particular time.

The Selling Stockholder may pledge their registered shares to brokers under the margin provisions of customer agreements. If the Selling Stockholder defaults on a margin loan, the broker may, from time to time, offer and sell the pledged registered shares. The Selling Stockholder may also enter into option or other transactions with broker-dealers or other financial institutions or create one or more derivative securities which require the delivery to such broker-dealer or other financial institution of Common Stock offered by this prospectus, which shares such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

The shares of our Common Stock offered by this prospectus are being offered by the Selling Stockholder. The Selling Stockholder is an “underwriter” within the meaning of Section 2(a)(11) of the Securities Act. Any broker-dealers or agents that may become involved in selling the registered shares offered under this prospectus may be deemed to be “underwriters” within the meaning of the Securities Act in connection with these sales. Any broker-dealers or agents that are deemed to be underwriters may not sell registered shares offered under this prospectus unless and until we set forth the names of the underwriters and the material details of their underwriting arrangements in a replacement prospectus included in a post-effective amendment to the registration statement of which this prospectus is a part.

The Selling Stockholder and any other persons participating in the sale or distribution of the registered shares offered under this prospectus will be subject to applicable provisions of the Exchange Act, and the rules and regulations under that act, including Regulation M. These provisions may restrict activities of, and limit the timing of purchases and sales of any of the registered shares by, the Selling Stockholder or any other person. Furthermore, under Regulation M, persons engaged in a distribution of securities are prohibited from simultaneously engaging in market making and other activities with respect to those securities for a specified period of time prior to the commencement of such distributions, subject to specified exceptions or exemptions. All of these limitations may affect the marketability of the registered shares. We will make copies of this prospectus available to the Selling Stockholder and have informed them of the need to deliver a copy of this prospectus to each purchaser at or prior to the time of the sale (including by compliance with Rule 172 under the Securities Act).

If any of the registered shares offered for sale pursuant to this prospectus are transferred other than pursuant to a sale under this prospectus, then subsequent holders could not use this prospectus until a post-effective amendment or prospectus supplement is filed, naming such holders. We offer no assurance as to whether the Selling Stockholder will sell all or any portion of the registered shares offered under this prospectus.

The Company will pay all fees and expenses incident to the registration of the registered shares being offered under this prospectus. The Selling Stockholder is individually responsible for paying any discounts, commissions and similar selling expenses it incurs.

We and the Selling Stockholder have agreed to indemnify one another against certain losses, damages and liabilities arising in connection with this prospectus, including liabilities under the Securities Act.
